

PLEASE WATCH OUT FOR OUR CHILD WITH DOWN SYNDROME

We have a child with Down Syndrome. Our child's name is _____.
S/he is a _____-year-old boy / girl. S/he usually wears _____.

We watch our child very carefully, but sometimes he/she unpredictably wanders away.

If you see our child and s/he is alone please call _____. We are probably already looking for him/her.

Please also call 911 and tell them that you have found our child.

_____ does not speak very well. Our child does not appreciate danger. S/he might approach a dog or walk into the street without looking. S/he might walk into your house if a door is open.

_____ will become lost very easily and not know s/he is lost. If you ask our child a question s/he will likely not answer.

_____ may seem to be deaf. However, our child can hear. But s/he does not appreciate or act upon things that s/he hears or sees.

_____ sometimes has outbursts where s/he might scream or shake his/her hands or act in other unusual ways for a few moments. This is like a seizure. Please don't misinterpret any of these motions. S/he never intends to hurt anyone.

We have included a picture of our child.

Thank You,
